INTERNAL-REPLACE BATTERY	SEGMENT 01 TOTAL:	10644.56
<p>Replaced battery and still wont start.          Brought loader into the shop with forklift and let warm up overnight.          Tried starting and determined starter was bad. Ordered and replaced starter and tried to start loader. Starter was getting hot but not turning the engine.          Tried to turn engine by hand and couldn't turn crank, engine seized.          Removed hydrostat pump assembly and tried to turn over by hand again and still wont turn.          Removed bucket with forklift and turned loader around. Removed radiator, hydraulic, and intercooler assemblies. Removed valve cover and injectors. Tried turning again and still wont turn over.          Removed muffler, unhooked all electrical wiring and fuel lines. Remove bolts out of A/C unit and raise up out of the way.          Removed engine mount bolts and removed engine with a forklift. Change over inj pump, injectors and lines, front pulley, front timing cover (replaced seal). Also inspected oil pump condition while front cover was off, looked good. Changed over bell housing and flywheel, replaced lovejoy coupler while apart. Changed over oil line fittings, exhaust and intake manifolds.          Cleaned old gasket off valve cover and oil pan. Installed new gaskets and install valve cover and oil pan. Set reman engine into loader, hook up fuel lines, wiring and hydrostat pumps.          Installed coolers and radiator assemblies, lowered A/C unit into place and bolt down.          Installed new engine oil filter and oil, filled with new coolant, bled fuel system, started up and ran. Ran loader outside and drove around,</p>
