<td>C</td>
<td>Every 2000 flight hours or 5 years.</td>
</tr>
<tr>
<td>D</td>
<td>Every 5 years.</td>
</tr>
<tr>
<td>E</td>
<td>Every 1500 flight hours or 5 years.</td>
</tr>
</tbody>
</table>

### 2.1 Overhaul and Replacement Schedule

The code letters above correspond to the following life limits specified for the engine or component in question. The code letters are used in conjunction with Table 4-2 in the event of discrepancies. Life limits for components and accessories generally are related to the maximum number of flight hours or calendar years they can be operated in service. The following paragraphs are intended to provide guidance on the proper use of these life limits and the methodology to determine the appropriate action when life limits are exceeded.
